

SALES & PRODUCT INFORMATION

September 2021

Ref:	Humidity
Product Family:	Large Square Balers
Product Range:	0700A

7 Series High Precision Humidity Sensor

2200 Series	2300 Series
PFC-700A	PFC-700UHD

SALES & PRODUCT INFORMATION

Features

- **INTEGRATION**
 - Electronically through the balers CANBUS
 - Live and average humidity shown via the baler's terminal
 - Baler is factory prepared for mechanical installation
- Working range between 8 - 70% humidity
- Accuracy +/- 1% < 35% humidity
- 9 measurements per second
- Moisture is measured through the profile of the slice to achieve high levels of accuracy
- Additional harnesses and sensors for applicator ready upgrade
- Provides live humidity readings
- Provides average for the previous bale humidity data
- Provides job records

Benefits

- **NO Calibration of moisture sensor when changing crops and bale density**
- Extended working day = More bales
- Non-stop baling = More bales
- Moisture accuracy = High quality bales
