SALES & PRODUCT INFORMATION

Features

- **NON-INTEGRATED** – this system operates through a wired connection via smartphone or tablet (Apple/Android)
- Working range between **6 - 60%** humidity
- Accuracy +/- **1%** < 35% humidity
- **5 measurements** per second
- Moisture is measured **through the outer 150mm of the bale as it forms** to achieve high levels of accuracy
- Provides live humidity data
- Provide the previous bale average humidity

Benefits

- **NO Calibration when changing crops and bale density**
- Extended working day = More bales
- Non-stop baling = More bales
